DIRECTOR OF UTILITIES

Dear Sir;

Please do not raise our Electric bill. Everything keeps going up gas for cars, house taxes, Health Ins. Cost my husband Charles & me 900 per month. We spent $12,500.00 last year for medical bills alone. We are retired 62 year olds. Who will be eventually made to sell our home because we can't afford things for our home on our fixed income. So could you please not raise our Electric bill.
