July 7, 2005

Honorable Jane L. Rodda

As residents & homeowners in San Manuel, we had expected to be notified of meetings that involved our wastewater treatment facilities. We did not receive notice.

Several questions concern us:
Where will the plant be located?
What about odor control?
Will we have a flat rate?
Are fees to be based on water use?
If based on use will we pay more for watering outdoors in the summer?

If based on water use will we pay more for using evap. coolers?
When will the new plant become operational?
When will the new rates go into effect?

It is not to late for Coronado Utilities to show the residents the courtsey of a local informal meeting.

Sincerely,

Ronald Huber

Carol Huber
