Dear Chairman Spitzer and members of the Arizona Corporation Commission:

I am a resident of Lake Havasu City and a customer of Citizens' Arizona Electric Utility. On May 1 the Corporation Commission conducted a hearing in Phoenix regarding the proposed acquisition of Citizens' Arizona Electric and Gas Divisions by Unisource Energy Corporation; Citizens' Electric Division's request to recover costs stemming from an increase in the cost of electricity (Purchased Power Fuel Adjustor Case); and a pending rate case for Citizens' Gas Division. Recently, Administrative Law Judge Dwight D. Nodes rendered his opinion to the Commission and recommended you approve a 22% increase in the cost of electricity (Purchased Power Fuel Adjustor Case) for several regions in Arizona, including Lake Havasu City.

I oppose the proposed 22% increase in the cost of electricity. While price increases for goods and services are inevitable, a 22% increase in utility rates under which all citizens must bear would severely impact our local economy and will hinder the growth and reduce the quality of life in Lake Havasu City. The ratepayer's were not involved in the poor decisions made by Citizens' management team and therefore, Citizens' shareholders and not the ratepayers should be required to bear the burden of the error in judgment made by Citizens' management.

It is our understanding the Commission will make its ruling on this issue during an open meeting in Phoenix on either July 1 or 2. I urge you to listen to the residents and voters in Lake Havasu City, consider the negative affect a double digit increase in electric rates would bring to our community, and disallow the increase in rates as currently proposed.

Sincerely

Subject: Citizens' Arizona Electric Utility

Dear Chairman Spitzer and members of the Arizona Corporation Commission:

I am a resident of Lake Havasu City for nearly 40-years and a customer of Citizens' Arizona Electric Utility. On May 1 the Corporation Commission conducted a hearing in Phoenix regarding the proposed acquisition of Citizens' Arizona Electric and Gas Divisions by Unisource Energy Corporation; Citizens' Electric Division's request to recover costs stemming from an increase in the cost of electricity (Purchased Power Fuel Adjustor Case); and a pending rate case for Citizens' Gas Division. Recently, Administrative Law Judge Dwight D. Nodes rendered his opinion to the Commission and recommended you approve a 22% increase in the cost of electricity (Purchased Power Fuel Adjustor Case) for several regions in Arizona, including Lake Havasu City.

I strongly oppose the proposed 22% increase in the cost of electricity. While price increases for goods and services are inevitable, a 22% increase in utility rates under which all citizens must bear would severely impact our local economy and will hinder the growth and reduce the quality of life in Lake Havasu City.

The ratepayer's were not involved in the poor decisions made by Citizens' management team and therefore, Citizens' shareholders and not the ratepayers should be required to bear the burden of the error in judgment made by Citizens' management.

It is our understanding the Commission will make its ruling on this issue during an open meeting in Phoenix on either July 1 or 2. I urge you to listen to the residents and voters in Lake Havasu City, consider the negative affect a double digit increase in electric rates would bring to our community, and disallow the increase in rates as currently proposed.

So many people here are retired and on fixed incomes. During the summer months, it is a choice of eating or staying cool. Young people work for minimum wage and barely survive. It would be a very great hardship on the majority of residents to allow this increase to go through.

Most respectfully yours,

Elizabeth C. Paxton, CEO

Subject: LETTER TO CORPORATION COMMISSION

Dear Chairman Spitzer and members of the Arizona Corporation Commission:

I am a resident of Lake Havasu City and a customer of Citizens' Arizona Electric Utility. On May 1 the Corporation Commission conducted a hearing in Phoenix regarding the proposed acquisition of Citizens' Arizona Electric and Gas Divisions by Unisource Energy Corporation; Citizens' Electric Division's request to recover costs stemming from an increase in the cost of electricity (Purchased Power Fuel Adjustor Case); and a pending rate case for Citizens' Gas Division. Recently, Administrative Law Judge Dwight D. Nodes rendered his opinion to the Commission and recommended you approve a 22% increase in the cost of electricity (Purchased Power Fuel Adjustor Case) for several regions in Arizona, including Lake Havasu City.

I oppose the proposed 22% increase in the cost of electricity. While price increases for goods and services are inevitable, a 22% increase in utility rates under which all citizens must bear would severely impact our local economy and will hinder the growth and reduce the quality of life in Lake Havasu City. The ratepayer's were not involved in the poor decisions made by Citizens' management team and therefore, Citizens' shareholders and not the ratepayers should be required to bear the burden of the error in judgment made by Citizens' management.

It is our understanding the Commission will make its ruling on this issue during an open meeting in Phoenix on either July 1 or 2. I urge you to listen to the residents and voters in Lake Havasu City, consider the negative affect a double digit increase in electric rates would bring to our community, and disallow the increase in rates as currently proposed.

Sincerely,

Subject: rate increase

Dear Chairman Spitzer and members of the Arizona Corporation Commission:

Dear Chairman Spitzer and members of the Arizona Corporation Commission:

I am a resident of Lake Havasu City and a customer of Citizens' Arizona Electric Utility. On May 1 the Corporation Commission conducted a hearing in Phoenix regarding the proposed acquisition of Citizens' Arizona Electric and Gas Divisions by Unisource Energy Corporation; Citizens' Electric Division's request to recover costs stemming from an increase in the cost of electricity (Purchased Power Fuel Adjustor Case); and a pending rate case for Citizens' Gas Division. Recently, Administrative Law Judge Dwight D. Nodes rendered his opinion to the Commission and recommended you approve a 22% increase in the cost of electricity (Purchased Power Fuel Adjustor Case) for several regions in Arizona, including Lake Havasu City.

I oppose the proposed 22% increase in the cost of electricity. While price increases for goods and services are inevitable, a 22% increase in utility rates under which all citizens must bear would severely impact our local economy and will hinder the growth and reduce the quality of life in Lake Havasu City. The ratepayer's were not involved in the poor decisions made by Citizens' management team and therefore, Citizens' shareholders and not the ratepayers should be required to bear the burden of the error in judgment made by Citizens' management.

It is our understanding the Commission will make its ruling on this issue during an open meeting in Phoenix on either July 1 or 2. I urge you to listen to the residents and voters in Lake Havasu City, consider the negative affect a double digit increase in electric rates would bring to our community, and disallow the increase in rates as currently proposed.

Attached is a letter to the Arizona Corporation Commissioners regarding the proposed 22% electric utility rates. The administrative judge has recommended that the Commissioners approve this rate increase and they are tentatively scheduled to take that action on July 1 or 2.

If you oppose this rate increase, please add your name to the bottom of the letter and email it to the following five commissioners:

Arizona Corporation Commissioners

Please call Lisa Krueger at the Chamber with any questions (855-4115).

Dear Chairman Spitzer and members of the Arizona Corporation Commission:

I am a resident of Lake Havasu City and a customer of Citizens' Arizona Electric Utility. I am furious about this increase!!! An increase 3-5% would be acceptable. I am on a limited budget and simply can't afford this type of increase! The majority of us aren't on politicians income! Think of the voters!

Subject: Rate increase in Havasu

Please find my copy of the protest letter attached. I do not look forward to having to move out of state, but the pay scale in this town is barely survivable as is. With an double digit increase in the electricity, soon to be followed by one in the cost of our water and an increase in all other goods and services here in town we will have little choice in the matter. If I had been receiving checks form the stockholders while they were making money I might be more inclined to see that I should have to chip in when the board, they hire to run the company, makes bad calls. But my checks must have been lost in the mail for the last 34 years I have received utilities from Citizens. You note I do not use the word Service, never having received any of that from this this company.

Recently, Administrative Law Judge Dwight D. Nodes rendered his opinion to the Commission and recommended you approve a 22% increase in the cost of electricity (Purchased Power Fuel Adjustor Case) for several regions in Arizona, including Lake Havasu City.

I oppose the proposed 22% increase in the cost of electricity. While price increases for goods and services are inevitable, a 22% increase in utility rates under which all citizens must bear would severely impact our local economy and will hinder the growth and reduce the quality of life in Lake Havasu City. The ratepayer's were not involved in the poor decisions made by Citizens' management team and therefore, Citizens' shareholders and not the ratepayers should be required to bear the burden of the error in judgment made by Citizens' management.

It is our understanding the Commission will make its ruling on this issue during an open meeting in Phoenix on either July 1 or 2. I urge you to listen to the residents and voters in Lake Havasu City, consider the negative affect a double digit increase in electric rates would bring to our community, and disallow the increase in rates as currently proposed.

Sincerely,

Ralph E. Tapscott

I oppose the proposed 22% increase in the cost of electricity. While price increases for goods and services are inevitable, a 22% increase in utility rates under which all citizens must bear would severely impact our local economy and will hinder the growth and reduce the quality of life in Lake Havasu City. The ratepayer's were not involved in the poor decisions made by Citizens' management team and therefore, Citizens' shareholders and not the ratepayers should be required to bear the burden of the error in judgment made by Citizens' management.

It is our understanding the Commission will make its ruling on this issue during an open meeting in Phoenix on either July 1 or 2. I urge you to listen to the residents and voters in Lake Havasu City, consider the negative affect a double digit increase in electric rates would bring to our community, and disallow the increase in rates as currently proposed.

Sincerely,

Tim Szymanski

Dear Chairman Spitzer and members of the Arizona Corporation Commission:

I am a resident of Lake Havasu City and a customer of Citizens' Arizona Electric Utility. On May 1 the Corporation Commission conducted a hearing in Phoenix regarding the proposed acquisition of Citizens' Arizona Electric and Gas Divisions by Unisource Energy Corporation; Citizens' Electric Division's request to recover costs stemming from an increase in the cost of electricity (Purchased Power Fuel Adjustor Case); and a pending rate case for Citizens' Gas Division. Recently, Administrative Law Judge Dwight D. Nodes rendered his opinion to the Commission and recommended you approve a 22% increase in the cost of electricity (Purchased Power Fuel Adjustor Case) for several regions in Arizona, including Lake Havasu City.

I oppose the proposed 22% increase in the cost of electricity. While price increases for goods and services are inevitable, a 22% increase in utility rates under which all citizens must bear would severely impact our local economy and will hinder the growth and reduce the quality of life in Lake Havasu City. The ratepayer's were not involved in the poor decisions made by Citizens' management team and therefore, Citizens' shareholders and not the ratepayers should be required to bear the burden of the error in judgment made by Citizens' management.

It is our understanding the Commission will make its ruling on this issue during an open meeting in Phoenix on either July 1 or 2. I urge you to listen to the residents and voters in Lake Havasu City, consider the negative affect a double digit increase in electric rates would bring to our community, and disallow the increase in rates as currently proposed.
