ORIGINAL

MAYES PROPOSED AMENDMENT # 3

DATE PREPARED: Dec. 10, 2008, 10 a.m.

COMPANY: Perkins Mountain Water Company AGENDA ITEM NO. U-23

DOCKET NO. SW-20379A-05-0489; W-20380A-05-0490

OPEN MEETING DATE: December 16-19, 2008

Page 24, line 5, INSERT: "Evidence in the record demonstrates that concern exists regarding water availability in the aquifers that underlie this proposed CC&N. While the Company has voluntarily agreed to implement more Best Management Practices (BMP's) than would be required by the Arizona Department of Water Resources (ADWR does not require any BMP's to be adopted by water systems outside of an Active Management Area), we are concerned that the BMP's that have been chosen by the Company appear to come largely out of the education and outreach category of BMP's. Staff testified that to achieve maximum water conservation, BMP's should be a mix of both education and actual physical water conservation measures. We believe this Company should adopt five more BMP's than would be required by ADWR if this Company were located in an Active Management Area and file those BMP's in Docket Control for Commission consideration no later than March 1, 2009. Only two of the BMPs proposed by the Company shall be from Category 1 (Public Awareness/Public Relations) or Category 2 (Conservation, Education and Training)."

Page 27, line 2, INSERT NEW ORDERING PARAGRAPH:

"IT IS FURTHER ORDERED that Perkins Mountain Water Company shall adopt at least five more BMPs than would be required by ADWR if Perkins Mountain Water Company was in an Active Management Area (as outlined in ADWR's Modified Non Per-Capita Conservation Program) and file those BMP's in Docket Control for Commission consideration no later than March 1, 2009. Only two of the BMP's proposed by the Company shall be from Category 1 (Public Awareness/Public Relations) or Category 2 (Conservation, Education and Training)."

Make all conforming changes as necessary.
