Hello Arizona Corporation Commission

I am writing about the 10.4% increase in home gas for heating, hot water, ect. I live on $677.00 a month social security. From that I pay $325.00 space rent for my old Mobile-home. I pay electric, phone, home insurance, auto insurance on a Van I can't drive as gasoline costs to much to run it but two (2) times a month to get food. I am going to sell my home as I can not afford to live in it anymore. We got $18.00 a month more starting in Jan 05. But rent went up $5.00 a month, milk costs $2.49 gal. gasoline has kept going up. And from the $18.00 we have nothen. Arizona does the least for Seniors than any other State in U.S.A. I guess I will be living on the Streets if everything keeps going up. And I don't have enough now to enjoy life so what is going to happen if everything keeps going up. I'll have to eat dog food soon!

Mr. Ronald A. Dorman
