Dear Honorable Jane L. Rodda:

I am a resident of San Manuel, and as such have become aware of "The Sewer Issue." First I became concerned when I was informed effective soon, almost immediately, and monthly, of the cost that will be incurred by us, the Residents. Second I was shocked; Until now I was unaware that we didn't already have a Sewer treatment facility for our area.

If I understand correctly "MAGMA" had a contract with our Community, which might have been passed on to "BHP", to maintaine The Then, and Current San Manuel Sewage. It doesn't sound to me like it was done. I'm not a highly educated person, but I have a question in my mind - "Was this legal?"

As a low income resident, as are many others in San Manuel, I just don't believe we can handle another major utility. There must be another way! How many other Company's have bid on this job? If you can, please do something, the citizens of San Manuel would greatly appreciate your help. Sincerely,

514 San Carlos
