Docket E-00000XX-13-0241

0000157952

Members of the Arizona Corp. Commission

I believe energy efficiency is very important because it saves money on utilities during the summer heat and helps to decrease emissions which augment respiratory illnesses that are prevalent in Az. As a resident of this state, I am in support of the current energy standard. I believe it should stay in effect to keep the benefit of energy efficiency.

I recognize that energy efficiency costs slightly more up front, but I agree to pay this cost to see my utility bills decrease over time. The current energy efficiency standard is key! Thank you for your work on this urgent issue.

Sincerely,

George Vuchinich
