AND INSERT: "The Commission has studied the need for and benefit of the AISA in this and other matters. There is no need for the AISA and no benefit is provided to Arizona ratepayers from its continued existence. The argument that it is less than $400,000 a year of ratepayer money being spent for no benefit whatsoever is less than acceptable. No justification for continuing to require utilities to fund and / or support AISA has been made in this case. Therefore, any and all requirements to fund and/or support the AISA that have been imposed by the Commission in any and all past decisions, agreements, orders or rules are hereby waived."
