Concerning Docket # WS-03478A-08-0608.

We received a letter saying the sewer utility service rates are going to increase more than double if okayed by the commission. We own a home in the foothills that we only occupy 6 months or less each year. We no longer are able to discontinue our service when our home is not occupied. That means we'll be paying for sewer service at a much higher rate because no one is using the service for six months or more. I feel the increase of over 100% is unreasonable.
