RE: Docket Numbers E-01345A and ~~E-00000J-08-0314~~

Dear Commissioners:

As an Arizona Public Service Company customer, I am writing to urge you to require that APS invest more of our ratepayer dollars in energy efficiency as part of their request to increase rates. In addition, I urge you to increase energy efficiency requirements for all utilities.

Increasing energy efficiency is one of the most cost-effective tools for energy management; in addition, doing so has many positive environmental impacts, which affect the quality of all life in Arizona.

While energy-efficiency measures may result in somewhat higher rates, if they are properly implemented, they can result in reduced electric bills through reduced energy consumption.

Thank you for considering my comments.

Sincerely,

Sally Rings, 4114 E. Mercer Lane, Phoenix, AZ 85028
