Dear Commissioners,

re: docket # E-01345A-08-0172

I am writing in support of increasing energy efficiency programs in AZ as part of the Commission workshops and the APS rate case. As you know, energy efficiency is the quickest, cheapest & cleanest way for our state to meet its growing energy needs.

I urge you to require a 20% increase in energy efficiency by 2020. As the public becomes more informed our expectations of our utility company rises - Efficiency through measures such as lighting & weatherization will help lower over all electric bills, yet your leadership in reducing the energy use on a large scale is paramount to making a difference in the long term.

I am willing to pay higher rates to fund programs that will decrease my energy use and lower my electric bills.

Hopefully,

Sally Muly
1502 W. Ste Lucia, Gilbert AZ 85233
