SAVE OUR WATER SUPPLY

SAVE THE HUALAPAI VALLEY AQUIFER
Kingman AZ
Sponsored by: Denise Bensusan
928-692-6933

We the undersigned support the approval of the Hualapai Valley Solar Project as a **DRY-cooled** (minima water usage) Solar Power Plant **ONLY**. Approval as a WET-cooled (MASSIVE water use) Power Plant is irresponsible and totally unacceptable. Endangering a communities water supply **(which is already in depletion)** radiates ruthless and selfish business practices by any who would utilize it and any who would approve it. **We will not tolerate the destruction of our water supply for corporate profit.**
