DOCKETED BY *CAI*

FOURTH SET OF DATA REQUESTS OF
THE KROGER CO.
TO ARIZONA PUBLIC SERVICE COMPANY

Kroger Co. Request No. 1

With regard to the "General Service kW by Function (Annual Determinants)" as shown on the tab "Voltage" in the attachment RC00596 to the response to Kroger 1.1, does this annual demand include imputed billing demand for non-demand metered customers in the SGS class? If so, please provide workpapers and support for all assumptions used in imputing the billing demand.

Kroger Co. Request No. 2

Please provide a breakdown of the "General Service kW by Function (Annual Determinants)" by rate class and voltage level, using the classifications shown on workpaper AP_WP21.

Kroger Co. Request No. 3

Please explain how the amount of distribution revenue requirements to be collected through an energy (kWh) charge on Rate E-32 was determined. Provide any available workpapers supporting this calculation.

Kroger Co. Request No. 4

Provide all workpapers supporting the calculation of the E-32 distribution demand charges of \$6.348/kW and \$4.618/kW, including the development of the target revenue requirement and test year billing determinants.

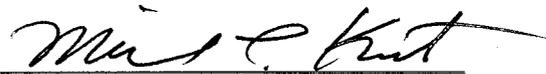

Kroger Co. Request No. 5

How much of the SGS, MGS, and LGS revenue requirement is allocated to rate schedules other than E-32? Please provide all workpapers showing how these amounts (by function) were determined and a "mapping" of these revenue requirements to rate schedules.

Kroger Co. Request No. 6

Please provide all workpapers supporting the class rates of return under proposed rates, as shown on workpaper AP_WP6. Please provide all spreadsheets used in calculating these rates of return in electronic form, with all cell formulas intact.

Respectfully submitted,

Michael L. Kurtz, Esq.

Kurt J. Boehm, Esq.
