RE. Consumer comments in support of Tucson Electric Powers Energy Efficiency Programs & Program Budgets, E-0193 3A-11-0055

Dear Chairman Pierce and Commissioners,

I am writing as a current Tucson resident and Tucson electric power company customer. I would like to express my support for the new standard and budget programs set by your commission. The TEP must not be allowed to waver efficient energy use. At this point in time it seems there has been more talk and less action on the subject of moving away from fossil fuels and moving towards clean energy. These new programs will only benefit my community by saving energy and money and creating jobs for an ~~econ~~ economy that has slowed down in recent years. Please consider these important programs.

Thank you,

Jacey Binkow

RE: Consumer comments in support of Tucson Electric Power's energy efficiency program budgets, E-01933A-11-0055

Dear Chairman Pierce & Commisioners,

I am writing this letter to give my support to the energy efficiency programs & budget programs proposed by TEP. As a TEP customer increasing energy efficiency is important to me because it is better than burning up our natural gases and it creates more jobs & economic development in the community. I am willing to pay a little more for my utilities if it means that my energy bills will go down. Keeping Tucson & TEP's future customers in mind these proposals will help direct Tucson in the right path for energy efficiency.

RE: consumer comments in support of Tucson Electric Power's energy efficiency programs + program budgets, E-01933A-11-0055

Dear Chairman Pierce and Commissioners,

As a loyal customer of Tucson Electric Power Company, I am writing to you to express my support for the energy efficiency programs and budget programs proposed by TEP in their energy efficiency implementation. I am willing to invest in higher energy bills for the preservation of our environment and future health of our citizens. If enacted TEP's energy efficiency programs and budget programs will have a positive effect on Tucson's community by providing jobs and decreasing the cost of energy on our environment.

I highly encourage you to support these programs with TEP's current & future ratepayers in mind.

Best Regards,

Victoria Sanders

RE: CONSUMER COMMENTS IN SUPPORT OF TUCSON ELECTRIC POWERS energy efficiency programs & program budgets

Dear Chairman Pierce & comm.,

as a tucson electric power customer, I urge you to implement the new energy standard in tucson. It is irresponsible to let the power company waive new clean energy that will lead to efficient energy use. I support this new standard because it will most importantly bring jobs that are so desperately needed. electric power customers, including myself will be able to save money in the long run and we can finally venture into the new era of clean energy. I would consider paying higher utility rates if it means for my bills to go down. I feel that so much money is wasted with electricity and I am looking forward to an alternative, to forbade throwing money down the drain.

I urge you to keep this standard alive and force tep to adhere to it.

Sincerely,
Jess Athey

RE: Consumer comments in support of Tucson Electric Power's Energy Efficiency Program Budgets, E-01933A-11-005

Dear Chairman Pierce and Commissioners,

My name is Mark Blitzer, a customer of Tucson Electric Power (TEP) who wants your company to support the energy efficiency programs and program budgets proposed by TEP in their energy efficiency implementation plan. While initial costs may increase my bills, I am willing to pay this premium due to the long term benefits such as lower energy costs and potential for job creation in my community.

I encourage you to protect the interests of today and tommorow's ratepayers by supporting these important programs.

Sincerely

Tucson Resident, Mark A. Blitzer

RE: Consumer Comments in Support of Tucson Electric Power's Energy Efficiency Programs & Program Budgets, E-01933A-10055

Dear Chairman Pierce & Commissioners,

I have been a customer of Tucson Electric Power for a long time, and I want to support the energy efficiency programs. The benefits of this program will create jobs, lower the costs, and help create a sustainable plan for Tucson and our future. This is a needed plan that can thrive, without it we will increase our energy use and have unnecessary building.

I am asking you to protect the people of Tucson and support the energy efficiency programs.

Sincerely,

Tucson Resident, Garrett Blackwell

RE: Consumer comments in support of Tucson Electric Power Company's Energy Efficiency Programs & Program Budgets, E-01933-09-11-005

Dear Chairman Pierce & Commissioners,

I am a current TEP customer and understand the nature for the need to start turning towards clean energy and away from fossil fuels. As expressed to me by representatives of Arizona PIRG, the new standard that has been adopted must be adhered by the TEP in order for our community and in the future our state to go down the road of clean energy. I would be more than willing to pay a slightly higher utility rate in order for efficient energy use to grow. It's in my own interest to save money and expect my community to grow out of this recession. According to the your commissions standard, this in fact should happen.

I urge you to implement this plan in order for the benefits in question to occur.

Thank you for your time,

Tucson Resident,

Rachel Peterson

RE: Consumer comments in support of Tucson Electric Power's Energy efficiency Program budgets. E-01933A-11-005

Dear Chairman Pierce and Commissioners,

My name is Alyssa McDermott, a customer of Tucson Electric Power (TEP) who would like your company to support energy efficiency programs and program budgets proposed by TEP in the energy efficiency implementation plan. Due to the long term benefits such as lower energy costs and potential for job creation in my community, I am willing to pay any initial increased costs. I encourage you to support these important programs as well.

Sincerely,

Tucson resident, Alyssa McDermott

Re: consumer comments in support of Tucson Electric Power's Energy Efficiency Programs & Program budgets, E-01933A-10055

Dear Chairman Pierce & Commisioners,

I have been a customer of Tucson Electric Power for quite some time now and would like to support the energy efficiency programs. The benefits of this program would help by creating jobs, lowering costs, and create a sustainable future for the Tucson community. This is a plan that we need, and without it our energy use will increase tremendously. I'm asking you to protect the people of Tucson and support the energy efficiency programs.

Sincerely,

Tucson Resident, Greg Walters
