Re: Support of Energy Efficiency #E-01933A-11-0055

Dear Chairman Pierce and Commissioners,

Arizona Corporation Commission
DOCKETED
MAY 10 2012
DOCKETED BY TM

As a Tucson Electric Power Customer, I urge you to support energy efficiency programs. Energy efficiency is a vital tool we can use to keep costs lower and reduce pollution.

I am gravely concerned with Global Warming, and the legacy of destruction and misery we are leaving for future generations.

Energy efficiency programs such as offering energy audits, weatherization assistance, efficient lighting and appliances can make an important difference in reducing emissions which directly contribute to Global Warming. I urge you to act to protect the interests & well-being of today's [redacted] Arizona residents, as well as those of generations to come.
