DOCKETED BY JM.

Dear Chairman Pierce and Commissioners:

I was disappointed to learn that TEP is cutting its energy efficiency investement from $11 million in 2011 to $5 million in 2012. This is backwards thinking. As a TEP customer, I ask that you increase TEP's energy efficiency budget, not only for the energy efficiency improvements that benefit the environment for for the jobs created from weatherization, energy audits

I encourage the Commission to act to protect the interest of ratepayers now and in the future by supporting these very important energy efficiency programs

Sincerely,

Rachel Dierling
