RE: Consumer comments in support of SW Gas energy efficiency programs, G-01551A-11-0344 ~~AND G-01551A-10-0458~~

Dear Chairman Pierce and Commissioners:

As a resident of an apartment that is serviced by Southwest Gas I urge you to support the energy efficiency programs and budgets proposed by Southwest Gas in their energy efficiency implementation plan.

Energy efficiency is an investment I am willing to make today so that it will keep my costs down in the future. It's good for my community, my environment, and for local Arizona jobs.

Please support these measures for me and for future generations of Arizonans!

Thank you sincerely,

E. Arthur
