Dear commision,

I am writing being concerned about a rate increase for water — Most resident's are not there most of the year, Propbaly 6-8 months are elsewhere. We've been there 3yrs, and people we know or have meet have said the water problem's a mess!!!

We need to go elsewhere for water service, this proposal is very negative, and needs to be "Addressed"

We live at 3432 Clark Cable Dr.
