OPEN MEETING AGENDA ITEM

Docket #
E-01933A-12-0291

0000145704

ORIGINAL

I am an Arizona citizen, and a customer of UniSource. I am deeply concerned about the long term energy policy of not only Arizona, but of the United States as a whole. My primary concern is the issue of climate instability, driven by the combustion of fossil fuels. I believe that the hand-writing is on the wall, and has been for a quarter of a century, regarding the long-term future of fossil fuels: There is none.

In this context, I am extremely pleased to learn that TEP has re-started its energy efficiency program. Fuel not burned is carbon dioxide not produced. I urge you to support the reinstatement and expansion of these programs, and to increase the EE program budget for TEP. Such an action would demonstrate a forward-looking, smart, socially-conscious agenda for the future of Arizona power.

Thank you for your consideration

Nick Kildahl, Rio Rico, AZ
