Dear Chairman Stump
and Commissioners
Arizona Corporation Commission
E-01933A
Docket 12-0291

I am a customer of Tucson Electric Power. I am asking you to support the Energy Efficiency Portfolio. We have already invested in six Energy Efficiency (EE) technologies for our home and have at the same time reduced the number of solar panels needed for our house from 15 to 10 panels. We would still like to reduce our electricity needs. We would like to do this with the assistance of TEP's EE standard programs. I would like TEP customers including myself to pay for this service through TEP bills. Please grant to TEP all the requested funds for their proposed EE programs.

Thank you,

Russell Lowes
