Docket 12-0291

Dear Commissioners,

I am a TEP customer. I am very interested in energy efficiency programs and am disappointed that The Corporation Commission has not acted on approving the energy efficiency program.

I have an older home that I have been trying to make more energy efficient. In particular, I'm interested in having a local business clean and seal the air ducts in my home.

Also, even though I have many shade trees in my yard, I have friends and neighbors who would benefit from the shade trees. I am wondering if pruning & shaping my shade trees in a particular manner would be a benefit if/when I get solar panels.

Again, please reinstate the Tucson Electric Power Energy Efficiency Program. Thanks.
