Dear Chairman Stump and Commissioners:

I am an Arizona voter and am writing to urge you to not approve the rate increase for APS regarding net metering, docket# E-01345A-13-0248. APS is proposing this to help cover their fixed costs for distribution, but we do not yet know what costs are being deferred by distributed power production. It would seem that an independent study to determine net benefits should be done before any action is taken. Thank you,

Alan Hoeffler
