I have been a customer of MRWC for years and have always been satisfied with the water service.

When ~~our water~~ it was found that our water system exceeded allowed arsenic levels MRWC provided a treatment system to correct this issue.

MRWC requested a rate increase for this system usage and to date it has not been approved.

I do not want unsafe arsenic levels to return to our neighborhood due to these delays.

For the sake of the customers please approve the rate increase so I can have peace of mind that the water is safe for me and my family.
