Docket E-00000XX-13-0214

0000157916

ORIGINAL

Dear Members of the Arizona Corporation Commission:

I believe energy efficiency is important and the standards you choose to implement will greately affect middle class working families, struggling low income families and small businesses. Utility companies should be providing consumers with more energy efficient options, not only to save themselves money, but as an incentive to use less energy. I think we can all agree that energy demands will increase greately in the coming decades, and we really need to figure out ways to not waste energy.

Please consider this urgent matter and thank you for your time and consideration.

Sincerely,

Spencer Hawkins
