Dear Member of the Arizona C

0000157920

Docket E-00000XX-13-0214

ORIGINAL

I truely believe energy efficiency is very important because it saves money on utilities during the Summer heat and helps to decrease emissions which augment respiratory illnesses that are prevalent in Arizona.

As a resident of this State, I am in support of the current energy efficiency standard. I believe it should stay in effect to keep the benefits of energy efficiency. I believe the current system is changing and if we were to go into a different direction it wouldn't be beneficial to anyone. it would cause so many more problems. I recognize that energy efficiency costs slightly more up front, but I agree to pay this cost to see my utility bills decrease over time. The current energy efficiency standard is key!

Thank you for your work on this urgent issue.

Sincerely,

Elizabeth Gardner
