Docket E-00000XX-13-0214

ORIGINAL

Dear members of the Arizona Corporation Commission:

I believe energy efficiency is extremely important. By being a more energy-efficient state, Arizonans will reap not only fiscal benefits, but also environmental and health benefits. With so much positivity surrounding energy efficiency, employing the Energy Efficiency Standard seems to be the natural thing to do.

The Standard, I realize, is currently being debated over, but I sincerely hope you will all agree to uphold it. Please remember that your decisions play a huge role in the lives of thousands of Arizona residents, like myself. I appreciate your time.

Best,

T. Rastogi
