DOCKETED BY

Dear Commissioners,

Energy efficiency is our cheapest, most plentiful resource, and we should do everything possible to encourage greater adoption.

Every kWh I don't use means less fuel purchased & shipped to our State, less haze & air pollution, and less wear & tear on the transmission system, putting off & sometimes cancelling expensive infrastructure investments.

Plus, with home weatherization & efficient appliances, I can decrease my energy consumption & encouraging self-reliance.

The Standard has saved us $1B, and it can do more with your help.

Thanks,
Kevin Hengehold
