Dear members of the Arizona Corporation Commission:

Energy Efficiency is extremely important in Arizona. There are monetary, health and environmental benefits, so I don't understand why Arizona is not more efficient with its energy use. The existing energy efficiency standard is just what Arizona needs! Knowing this, I would consent to a higher initial cost ~~of~~ for efficiency, only to see my utility bills go down and my quality of life go up. Thank you.

Sincerely,

Joanne Wiegener
