Docket E-00000XX-13-0014

0000157957

of the Arizona Corporation Commission

I am a supporter of advancing our states energy efficiency standard.

I believe the AZ Corp. Commission should make decisions now to improve our states energy efficiency standard so that we can decrease emissions that cause harm to our bodies and our states natural environment.

Making better decisions now for improve our states energy efficiency cost will help lower the energy costs in the future.

I hope you continue to look at this issue and support a more green and energy efficient state.
