Docket E-00000XX-13-0214

0000157967

Arizona Corporation Commission
1200 West Washington
Phoenix, AZ 85007

Dear Members of the Arizona Corporation Commission:

Energy efficiency is something that is lacking in Arizona at this time, and this needs to change. Energy efficiency is important because it allows us to have a healthier environment, and it also boosts our economy through green jobs. For these reasons, I support the current energy efficiency standard.

I have integrated more efficient light bulbs and other efficient practices into my home, and, therefore, save money longterm despite upfront costs, due to lower energy bills. I believe the current energy-efficiency standard is very important. Although I don't live in APS or TEP territories, I follow the Commission and reflect the concerns of those who vote for the Commission
