0000157969

Health of Arizonans is important, and in order to provide a thriving environment for our children, and our children's children, we must act now to effect this change. Not only is energy efficiency important for respiratory health, but also is important to leave a lasting legacy of public awareness so that we will be able to have a thriving and healthy community. Therefore, I support of the current energy efficiency standard.

Sincerely,

Christina Bills
