Docket E-00000XX-13-0214

0000157970

Arizona Corporation Commission

I believe energy efficiency is very important, not only for the World but for Arizona. This state has more days of sunlight then any other state. That make solar a huge benifit for home owners and business, big or small. Renewable and sustainable energy is the future and we all Know that!

I am in support of the current energy efficiency standard. I believe it should stay in effect to Keep the benefits of energy efficiency. If the current energy efficiency standard stays in effect all energy efficiency products will help every citizen in the state.
