Docket E-00000XX-13-0214

0000157971

the Arizona Corporation Commission,

For me I believe energy efficiency is something that is very important because not only does it save on money and utilities, but it decreases the amount of pollution in the air. I know that in my own home we are constantly turning off the lights when not in a room and only washing clothes early in the morning or late in the evenings. I think that this something that needs to be recognized and would benefit Arizona and its residents.

Sincerely

Rachel Himmelberger
