Subject: Docket No E-00000XX-13-0214

ORIGINAL

I am writing to express my dismay at the recent proposal to end efficiency standards in AZ. Efficiency is by far the cheapest method of meeting the rising demand for energy in a growing state like AZ. Ending these standards is little more than wasteful corporate welfare on behalf of utilities. If you are truly in favor of efficient gov't. spending, you will support the continuation of efficiency standards.
