Subject: Oppose Rollbacks and Revisions to Energy efficiency

Arizona Corporation Commission
DOCKETED
NOV 14 2014
DOCKETED BY

Dear Chairman Stump and Commissioners:

Arizona's Electric Energy Efficiency Standard has been a great contributor to Arizona's economy. This has been effective in benefiting consumers, businesses, and our communities. Please provide your "visionary" leadership to ensure this will continue.

Our state has been helped by assisting residents to reduce their electricity bills. This has been by installation of efficient lighting and more efficient air conditioners. The net saved by the two utilities is $928 million since 2008.

We ask that you keep gas energy efficiency requirements in place too. These have potential to contribute to more energy savings.

Due to all the benefits derived by EEF please do keep these standards in place.

Sincerely, Mike K
