Docket # ~~E-00000X-13-0214~~
E-00000XX-13-0214

Dear Commissioner Bitterscmith,

I am writing in support of maintenance and even enhancing the Energy Efficiency Standard for the State of Arizona. This is a tribute to Arizona and reflects wisdom + forsight in addressing our energy challenges for the future. It is extremely important that our utilities continue to be required to offer strong programs for home efficiency projects, support / offer incentives to improve efficiency and improve the efficiency of energy production in general.

Energy efficiency saves money for everyone. It lowers our utility rates, it prevents costs of new/higher production and it helps our future environmental concerns. EE also creates EE jobs!

The ACC has made Arizona a national star. Our standard is superb and can be made even better!

So please don't weaken or roll back our prize energy efficiency standard!

Thank you. for supporting our gem, our EES.
