RECEIVED
2014 DEC 12 A 8: 56
AZ CORP COMMISSION
DOCKET CONTROL

Dear Commissioners:

The past couple of week's activity on the rooftop solar debate has shown that officials are starting to take notice of the industry and the many problems with it. First, it was a letter from Congresswomen Kirkpatrick and Congresswoman Sinema that asked the Federal government to look into the long-term leasing programs that they are currently using. Now, another utility in SRP has asked for a change in policies so that everyone pays their fair share.

What has become evident is that there needs to be a change in the way that rooftop solar energy is paid for. It shouldn't be on the backs of regular rate-payers without solar power. It should be paid for by those with rooftop solar. This is an industry that has needed subsidy after subsidy. They need to be able to succeed on their own.

I know this debate has been going on for over a year now. The rising discontent from both homeowners and elected officials has reached levels where it can no longer be ignored. I trust that you will do the best and right thing for Arizonans.

Sincerely,

2936 W Gregg Dr
Chandler AZ 85224
