RECEIVED
2014 DEC 16 P 2: 1
AZ CORP COMMISSION
DOCKET CONTROL

Dear Commissioners Stump, Burns, Pierce, Burns, and Bitter Smith,

I know that you are probably weary of the rooftop solar vs. utility argument that has gone on for this last year. I commend you all on doing a great job balancing what is right for Arizona's energy future with what is right by Arizona ratepayers.

I am writing this letter to ask you all to continue to look at the Arizona energy future as one that is affordable and reliable, without putting undue burdens on the backs of ratepayers. Arizona's solar industry has been investigated by the Attorney General's office, its lease terms have come under scrutiny from some of our Congressional office holders, and those who have complaints with their rooftop solar are growing daily. The Commission should keep a close eye on these developments, and make sure that Arizonans aren't being swindled when it comes to the rooftop solar industry.

Again, thank you for all that you do and will do for the development and sustainment of energy in our state.

Sincerely,

John C Scott
