DOCKETED BY	
	BAU

Dear Chairwoman Smith:

All of us know that the way we produce and develop and distribute energy must be and will be changing in the next few years if we can hope to outrace the disastrous effects of past and present energy policies.

Arizona is well situated not only to evade and prevent some of the tragedy but to vigorously and intelligently and wisely take advantage of our well-known "place in the sun."

Please use your power to transform energy policies in Arizona. Please in this present instance do not weaken and disrupt solar development here.

Yours,

Carney Slaughter
