ORIGINAL

Dear Commissioner Burns,

My name is Susan Willis and I am a TEP customer here in Tucson.

I'm writing to urge you to oppose the proposed waiver of net metering rules and the additional tariff being sought by TEP for new residential solar customers.

I'm very concerned about our need to reduce carbon emissions in the face of climate change. I want our electricity supplier, TEP, to agressively build up their solar capacity, support rooftop solar, and get out of dirty fossil-fuel power generation as quickly as possible, but their request will hinder all that.

Solar energy generation is a rapidly-expanding industry and we need the jobs that will be created.

I have every hope that you will do what's best for the people and economy of Arizona by opposing TEP's proposed changes to residential solar rooftop net metering.

Thank you.

Docket#: TEP-15-0100

Dear Chairwoman Bitter Smith,

My name is Susan Willis and I'm a TEP customer, here in Tucson.

I'm writing to urge you to oppose the proposed waiver of net metering rules and the additional tariff for new TEP residential solar customers.

I'm very concerned about our need to reduce carbon emissions in the midst of Climate Change. I want our electricity supplier, TEP, to agressively build up their solar capacity, support rooftop solar, and get out of dirty fossil-fuel electricity generation, as quickly as possible, but their request will hinder that.

Solar energy generation is a rapidly-expanding industry and we need the jobs that will be created

I have every hope that you will do what's best for the people and economy of Arizona by opposing TEP's proposed changes to residential solar rooftop net metering.

Thank you.
