Supporting Schedule:
 (a) E-5, E-5 Dtl, D-1

Recap Schedule:
 A-3

Note 1: Intrastate capital items are developed by multiplying total state capital from Schedule D-1 times Net Plant Factor on Factors Worksheet.

Note 2: The Other Liabilities amount on Line 14 is the difference between the rate base items (Schedule E-5 DTL L1) and intrastate portion of total capital (Schedule D-Dtl L16).

Date: June 21, 2004

Cash and Cash Equivalents - Cash and cash equivalents include highly liquid investments with original maturities of three months or less that are readily convertible into cash and are not subject to significant risk from fluctuations in interest rates.

Inventories and Supplies - New and reusable materials of the Company are carried at average cost, except for significant individual items that are valued based on specific costs. Nonreusable material is carried at its estimated salvage value.

Property, Plant and Equipment - The investment in property, plant and equipment is carried at cost less accumulated depreciation. Additions, replacements and substantial betterments are capitalized.

Costs for normal repair and maintenance of property, plant and equipment are expensed as incurred.

The Company provides for depreciation of property, plant and equipment using various straight-line group methods and remaining useful (economic) lives authorized by regulatory commissions. When the depreciable property, plant and equipment of the Company is retired or sold, the original cost less the net salvage value is generally charged to accumulated depreciation.

Revenue Recognition - Local telephone service revenues are generally billed monthly in advance. These revenues are recognized when services are provided, generally the following month. Nonrecurring and usage sensitive revenues derived from installation, exchange access, and long-distance network services are billed and recognized monthly as services are provided.

Income Taxes - The provision for income taxes consists of an amount for taxes currently payable and an amount for tax consequences deferred to future periods. For financial statement purposes, investment tax credits are being amortized over the economic lives of the related property, plant and equipment in accordance with the deferred method of accounting for such credits.

Employee Benefits

Pension Plan - The company participates in a defined benefit pension plan sponsored by U S WEST which covers substantially all management and occupational employees. Management benefits are based on a final pay formula while occupational benefits are based on a flat benefit formula. The projected unit credit method is used for the determination of pension cost for financial reporting purposes and the aggregate cost method for funding purposes. The Company's policy is to fund amounts required under the Employee Retirement Income Security Act of 1974 and no funding was required in 1997 or 1996.

Postretirement Benefits Other Than Pensions - The Company participates in plans sponsored by U S WEST which provide certain health care and life insurance benefits to retired employees. In conjunction with SFAS No. 106, "Employers' Accounting for Postretirement Benefits Other Than Pensions," U S WEST immediately recognized the accumulated post retirement benefit obligation for current and future retirees. However the FCC and certain state jurisdictions permit amortization of the transition obligation over the average remaining service period of active employees for regulatory accounting purposes, with most jurisdictions requiring funding as a stipulation for rate recovery.

The Company uses the projected unit credit method for the determination of postretirement medical and life costs for financial reporting purposes. The amount funded by the Company is based on regulatory accounting requirements.

Schedule F-4
Title: Assumptions Used in Developing Projections

Date: Jun 21, 2004

Assumptions Used in Preparing Projections

Projections are based on test year results plus annualized revenue changes based on 1st quarter 2004 actual volumes.

Redacted.

<u>Product Category</u>	(\$000)	<u>Proposed Rate Change</u>	<u>% of Revenue Change</u>	<u>Product Category Return on Investment</u>		
				<u>Current</u>	<u>Proposed</u>	<u>Change</u>
Residence Basic Exchange Service		(3,691)	-1.23%	-13.58%	-13.80%	-0.22%
Business Basic Exchange Service		(500)	-0.38%	5.69%	5.54%	-0.15%
PBX Basic Exchange Service		(10)	-0.16%	20.44%	20.36%	-0.08%
Interconnect Service		0				
Public Access Line Service		(3)	-0.01%	53.89%	53.88%	-0.01%
Centrex Services		0				
ISDN Services		0				
Private Line Intrastate		747	2.82%	-7.27%	-6.87%	0.40%
IntraLATA Toll		0				
Carrier Feature Group - Intrastate		46	0.13%	142.11%	142.33%	0.22%
Central Office Features (COBS)		1,044	0.58%	89.36%	90.83%	1.47%
Billing and Collection - Intrastate		0				
Operator Services		0				
DA End User - Intrastate		9,680	62.93%	-63.81%	117.83%	181.64%
Listing Services (Other Services)		16	0.10%	208.11%	208.36%	0.25%
Special Services		0				
Wholesale - Resale		(11)	-0.17%	-54.53%	-54.65%	-0.12%
Wholesale - UNE		0				

Schedule G-2 identifies the impact by product category, as set forth in the Company's Schedule G-1 Cost of Service Summary, which would result from the Qwest Communications proposed changes to rates in this proceeding. In most cases the change in revenues, and resulting return on investment, for each of the product categories is immaterial. The approximate impact of the proposed rate changes is as follows:
