Re: Complaint

DOCKETED BY 

Maureen A. Scott & ACC Staff,

This letter is in response to the Commissions letter of October 21st regarding a complaint from the Commission to The Phone Company Management Group, LLC and LiveWireNet of Arizona LLC.

Live Wire Networks, Inc (LWNInc) is a Denver based company that provides regulated telecommunications services in Colorado. We also had two affiliated companies of LiveWireNet of Arizona, LLC and LiveWireNet of Washington, LLC in these respective States and the company had plans in 2001 to expand to these areas. The economic downturn following 911 in the fourth quarter of 2001 created an economic climate that made it impossible for LWNInc to pursue the expansion plans.

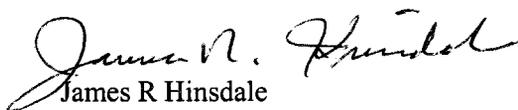

On January 10th 2002 LWNInc sold both LiveWireNet of Arizona, LLC and LiveWireNet of Washington, LLC to OnSystems Technologies, LLC (OnSystems). This sale included the operating authority and certificates of public convenience and necessity in these two states. Mr. Tim Wetherald respresented OnSystems and communicated to myself that all transfers of the certificates, operating authority, and change of name would be completed by the On Systems regulatory counsel.

I have become aware of some of the issues and problems that OnSystems were experiencing from David Stafford Johnson (who is an officer of LWNInc) in relation to the various companies that were associated and the ongoing friction with the investors for the group. The recent Commission complaint caught me by surprise when my name was attached with the document.

My position currently is President of LWNInc and I have no association, employment, title, or operating position with LiveWireNet of Arizona LLC, The Phone Company Management Group LLC, The Phone Company of Arizona LLP, or OnSystems Technology LLC. I respectfully request that my name be removed from all correspondence and documentation regarding this action.

I am available for any further communications required at 303-458-5667 or via E-mail to jim@livewirenet.com.

Sincerely,

James R Hinsdale
