Dear Sir,

I am requesting a public comment meeting in Bullhead City to address the method of billing RV Parks for water by Citizens Utilities. I understand American Water Works is purchasing Citizens Utilities, so this should be an appropriate time to revise the tariff.

Here at RiverView RV Resort our base charge is \$8.65 per month per lot for 696 lots. This amounts to \$72,244.00 per year. There are 1000 gallons in a unit. With the base charge we receive 1000 gallons free per lot. Each of our four (4) meters (two 6" meters and two 2" meters) has 174 units figured in to the base price. After the 174 units are metered each unit costs \$1.48. It is our opinion that the base rate should be figured at \$200.00 per month for the 6" meters and \$30.00 per month for the 2" meters. Base price would then be \$460.00 per month or \$5,520.00 per year. The difference of \$66,724.00 per year is ridiculous.

I am enclosing a copy of the tariff for your evaluation.

Thank you for your time and consideration.

Sincerely,

David Lenske
