-
- Q. Provide an itemized list of all expense reductions implemented in 1999, 2000, and 2001 with regard to corporate overheads and service company charges. Provide a brief narrative description of each reduction and the amount of each reduction.
- A. Qualification of response that follows: Arizona-American is not privy to the books and records of Citizens. Nor is Arizona-American privy to the rationale for the reductions that Citizens instituted during the pendency of the sale of their water and wastewater assets to the Company. However, I can provide the following response based on records that we do have in our possession and some understanding of the operations of Citizens before the finalization of the sale.

Attached hereto and attached to the response to DR AII 39-3 are copies of various overhead cost allocations of Citizens in the years requested. Also attached is a summary of the allocated charges to Arizona (not including labor or local overheads) from Citizens in 1999, 2000 and 2001. The summary provides a very telling story in that all of the 2001 costs from the three main centers (Louisiana Public Services, Stamford Office and Dallas Administrative Office) were reduced. There was an extremely significant reduction in the allocated costs from the Louisiana Public Service office in 2001. The Louisiana Public Service Office provided most of the accounting and billing services. This operation was being dismantled in 2001 since Citizens was selling all of its public utility service assets. There would be no use for the office after 2001. In fact, it is evident that the costs and services were being reduced by viewing the YTD Totals by PSS Company – Charges Allocated from Company 3999 (PSO) 2001 schedule attached to DR AII 39-3. The monthly charges shown on this sheet show that the costs started high in January 2001 (\$1,048,758) and were reduced to -\$32,984 by December. It is obvious that this center was closing operations. All accounting and billing services were reduced to only computer operations with no internal support by the end of 2001. Other reductions were also evident in the other offices, but not to the same extent.

Q. Identify and describe each service or function provided through corporate overheads or service company charges in 2002 that were not performed in 2001. For each such service or function, explain why the expense should be borne by ratepayers.

A. First – it has to be noted that Citizens and AWW may not operate in exactly the same manner, and as such the services provided through the overhead allocations may not be the same. For example, individuals such as Ray Jones were considered part of the overhead allocations by Citizens, whereas AWW considers this individual to be an employee of AZ-AM.

Second, we do not know exactly what services were and were not provided by Citizens in 2001. It is obvious from the testimony of Mr. Jones that Citizens had dramatically cut their financial services in 2001 – especially for such items as accounting and budgeting. As Mr. Jones testified, it may be workable to not have such services for a very short period of time, but these are services that have to be maintained for any viable continuing operation. As is exemplified in the response to AII 39-5 and the attachments thereto, the total costs of the billing and accounting departments from Citizens were reduced to nothing by the end of 2001. Any viable company has to be provided such services to sustain operation. All such services are borne by ratepayers in any regulated operation.

Lastly, and again to the most important point – the Citizens overheads and Service Company charges in 2001 are totally irrelevant to this subject application – Citizens does not any longer own and operate these districts. The only charges that are relevant and known are those of AWW – as we have provided in these applications.

- Q. Are the sale-related "management, legal, regulatory and accounting" activities reflected in the test year corporate overheads? See Jones Rejoinder page 6, lines 19-22.
- A. The sale-related costs for management, legal, regulatory and accounting resources that absent the sale would have been charged to corporate overheads are included in the unadjusted test-year corporate overheads.

Company Response Number: AII 39-9

Q. Please clarify or explain Mr. Stephenson's testimony on Page 17, lines 1-8.

A. Staff seeks clarification of my Rejoinder Testimony at page 17, lines 1-8. This testimony was offered in direct response to Mr. Igwe's Surrebuttal Testimony at page 6, lines 8-9, wherein Mr. Igwe inaccurately testifies that the Company's proposed pro forma adjustment to Citizens' recorded test year overhead expenses increased Arizona-American's operating expenses by more than \$4 million.

Mr. Igwe's testimony is extremely misleading in the fact that it only considers items characterized in the schedules as overheads, and in the fact that he has referred back to the Company's original position, not its rebuttal position. To provide an accurate picture of the difference in Citizen's total overhead costs and those of AWW you have to not only include those items characterized as overheads, but also labor costs, since Citizens charged a large portion of corporate labor to company labor expense. All of AWW's corporate labor is included in corporate overheads. Additionally, the Company has reduced their original request by over \$1.3 million to reflect actual costs incurred in 2002, not estimated costs provided in its original filing.

As a result, because the Company's pro forma adjustment (including Service Company costs, corporate overheads and labor) replaces Citizens' costs (including corporate costs and labor) with actual costs incurred in 2002, the Company's proposed adjustment has the effect of increasing the Company's operating expenses by just over \$1.9 million, as reflected in Stephenson Rejoinder Exhibit 2. In short, the Company found it necessary to point out that Staff had failed to present an adequate and complete picture concerning the Company's proposed pro forma adjustment to remove Citizens' test year total overhead costs (including labor). This replacement is necessary since these Citizens' overhead costs (including labor) bear no

relationship whatsoever to the costs that will be incurred by Arizona-American during the time the rates approved in this proceeding will be in effect.

ARIZONA-AMERICAN WATER COMPANY

CHRONOLOGIES OF KEY EVENTS

PRIOR CITIZENS DECISIONS

Sun City Water and Wastewater, Sun City West Water and Wastewater, Agua Fria Water and Tubac Water

Test Year: **April 1, 1994 – March 31, 1995**

Decision: Decision No. 60172 (**May 7, 1997**)

Mohave Water

Test Year: **April 1, 1987 – March 31, 1988**

Decision: Decision No. 56806 (**Feb. 1, 1990**)

Havasu Water

Test Year: **January 1, 1990 – December 31, 1990**

Decision: Decision No. 57743 (**Feb. 21, 1992**)

Anthem Water and Anthem/Agua Fria Wastewater

No previous rate cases.

CC&N: Decision No. 60975 (**June 19, 1998**)

Initial rates were agreed to by Citizens, Staff and RUCO.

Citizens was ordered to file a rate application utilizing a Test Year of 2003, or within six months of the time when 3,500 ERUs are being served. (That level of ERUs was reached in early 2002. See Schedule H-2 for Anthem Water (Ex. A-12), showing number of customers at December 31, 2001.)

CITIZENS ACQUISITION

October 15, 1999 – Citizens Communications, Arizona-American and American Water Works entered into asset purchase agreement.

March 24, 2000 – Citizens Communications and Arizona-American filed a joint application for approval of the transfer of assets and Citizens' CC&Ns.

September 27, 2000 – hearing on application.

November 15, 2000 – Arizona-American Water filed an application for authority to issue debt in an aggregate principal amount not to exceed \$180 million in connection with purchasing Citizens' assets. (No hearing.)

April 24, 2001 – Decision No. 63584 docketed, approving transfer.

August 30, 2001 – Decision No. 64002 docketed, authorizing Arizona-American Water to borrow up to \$180 million and to assume certain IDRBs.

January 15, 2002 – Citizens' acquisition closed.

AMERICAN WATER WORKS/RWE TRANSACTION

September 16, 2001 – American Water Works ("AWW"), RWE and Thames Water enter into Agreement and Plan of Merger.

December 17, 2001 – Arizona-American filed its application for a waiver of the Affiliated Interests Rules or, in the alternative, for an order declaring the AWW/RWE transaction is not subject to the Rules.

July, 2002 – meeting between Staff and Arizona-American; partial settlement reached on certain conditions recommended by Staff.

August 8, 2002 – hearing on Arizona-American's application.

December 12, 2002 – Decision No. 65453 docketed, approving AWW/RWE transaction subject to 15 conditions, including a condition prohibiting Arizona-American from filing any non-emergency rate increase requests for three years from the closing date of the transaction.

January 10, 2003 – the transaction between AWW and RWE/Thames Water closed, and the outstanding shares of AWW's common stock were acquired.

PENDING RATE APPLICATIONS

November 22, 2002 – rate applications were filed by Arizona-American for nine water and wastewater systems acquired from Citizens.

December 13, 2002 – rate application for the Tubac Water District filed.

* For simplicity, it is assumed the relationship of other overheads and service company charges to customer counts are linear. However, most components of these expenses do not have a linear relationship. For example, with respect to other overheads, postage and customer notifications are linear while workers compensation, 401k costs, and insurance do not. With respect to service company charges, customer service salaries and wages, rents, utilities (components of service company charges) do not have a linear relationship. Economies of scale are at work here. That is, there is enough 'capacity' to service an additional 2,029 customers without adding additional overheads.

ARIZONA-AMERICAN WATER COMPANY
2003 GENERAL RATE CASE
DOCKET NOS. WS-01303A-02-0867, 0868, 0869, 0870, and 0908

RESPONSE TO DATA REQUEST NO. DWC 4-4

Response provided by: Robert Kuta
Title: Manager
Company Name: Arizona-American Water Company
Address: 19820 North 7th Street, Suite #201
Phoenix, AZ 85024

Company Response Number: 4-4

Q. Please provide a statement describing all abnormal or non-recurring events during the Test Year or later that are known to have materially impacted revenues, expenses, or rate base investments.

A. As explained in the Direct Testimony of David P. Stephenson, the test year proposed by Arizona-American includes pro forma adjustments necessary to obtain a normal or realistic relationship between revenues, expenses and rate base and to take into account known changes resulting from Arizona-American's acquisition of Citizens' water and wastewater assets. Specific adjustments to revenues, expenses and rate bases were addressed in Mr. Bourassa's direct testimony.

In addition, in the Company's applications, rate bases were adjusted to reflect estimated revenue neutral plant (pro forma plant B-2, page 9) to be placed in service by December 31, 2002. The pro forma plant amounts are now supported by actual figures that in many cases are higher than in the original filing. Further, actual retirements for 2002 are now known. The Company has provided Staff with actual revenue neutral plant additions and retirements in response to a prior data request.

Pursuant to Decision No. 63584 (April 24, 2001), which authorized the sale and transfer of Citizens' water and wastewater assets in Arizona to Arizona-American, the Company transferred 5 percent of the AIAC balance imputed to Arizona-American to CIAC for ratemaking purposes. (Decision No. 63584 is discussed in the Direct Testimony of David P. Stephenson, and a copy of the decision is attached to his testimony as Stephenson Dir. Exh. 1.) The imputed CIAC is amortized over a ten-year period.

Immediately after September 11, 2001, Arizona-American Water Company accelerated efforts to reduce its the vulnerability to anticipated threats. This planned response began

by assessing vulnerabilities and taking active steps to address potential threats to facilities such as disruption, contamination, or catastrophic release of hazardous chemicals or radioactive materials that could adversely impact the ability to provide service. To date, and into the foreseeable future, the Company's efforts have resulted in significant capital and operational expenditures. Our commitment to this effort is fully supported by our Corporate Management and we will continue to aggressively pursue long-term solutions to these areas of risk so as not to compromise the public health and safety of our customers.

Other specific events affecting revenues, expenses, and rate base are:

Sun City Wastewater - The Company's share of the cost of a Tolleson trickling filter, installed in 2001, was removed from operating expenses and included in rate base as a deferred asset. The cost is being amortized using the composite depreciation rate for plant. The trickling filter is addressed in the direct testimony of Mr. Bourassa.

As explained by Mr. Kuta, Arizona-American and Tolleson are completing another amendment to the Tolleson Agreement. The amended agreement contemplates payment by Arizona-American of a new charge, Rate Component Four, to Tolleson for the Company's share of costs related to a 6-year capital improvement program being undertaken by the City. The rate application addresses aspects of this new agreement.

We believe any other abnormal or non-recurring events, during the Test Year or later, that are known to have materially impacted the revenues, expenses, or rate base investments, not mentioned above were addressed in the original rate applications.

Title: Director of Rates and Planning

Company Name: American Water Works Service Company
Address: 303 H Street, Suite 250
Chula Vista, CA 91910
(619) 409-7712

Company Response Number: 4-5

- Q. Please provide a narrative description of important financial or operational developments since the end of the Test Year.
- A. The following are operational developments that may have had an impact on Arizona-American since the end of the test year:
- Northeast Aqua Fria Expansion – Due to development growth, Arizona-American has been working with developers in the region northeast of Sun City West to expand our water and wastewater service into this 6000+acre service area. Arizona-American is currently expanding our existing WWTP by 2 mgd of treatment capacity to accommodate this growth and has filed for a CC&N expansion with the Commission.
 - Anthem Water/Wastewater Campus Expansion – Due to the customer growth at Anthem several expansions have been completed at the Anthem Water/Wastewater Campus since the end of the Test Year. This includes upgrades to the CAP pump station in Summer 02, finished water reservoir in Jan. 02, upper reservoir pump station in Summer 02, water treatment plant phase 3 expansion in Summer 02 and phase 4 expansion completion anticipated in May 03, and WWTP solids handling facility in Spring 02.
 - Sun City West WRP Sludge Dewatering Facility – To address community and odor concerns, this upgrade will provide the WWTP with mechanical sludge handling capabilities and eliminate the use of the existing sludge disposal fields. This project will be completed in Dec. 03.
 - Agua Fria District Water System Consolidation –Water systems 04-07-695 (Surprise system), 04-07-645 (Arizona Traditions/Happy Trails), 04-07-441 (Minnesota Title), and 04-07-152 (Clearwater Farms) have been interconnected and formally consolidated into one system – 04-07-695 (Agua Fria district). This combination has allowed for a more reliable water source and streamlined administration and reporting requirements for all these systems.

- Paradise Valley Integration – In 2002, the Paradise Valley Water System and operating staff were integrated into the organizational structure of Arizona-American Water Company's Central Operations (the former Citizens structure). The Superintendent of Paradise Valley now reports directly to the Operations Manager, Central Arizona.

The following are important financial issues that have had an impact on the Company since the end of the test year:

- The water assets of Citizens Utilities were acquired by American Water Works Co., Inc. This acquisition provides the opportunity to become part of the largest privately owned water company in the United States, and as such will provide customers with the potential of significant cost savings due to economies in scale and capitalization.
 - The stock of American Water Works Co., Inc. was purchased by RWE/Thames in a transaction that will now have all of the American customers becoming part of one of the World's largest private utility providers. This again, will provide the opportunity of significant cost savings for the customers through economies that likely would not be present had this acquisition not occurred.

Q. Please provide explanations as to why the plant payroll overhead rates were so variable and consistently higher than most of the Company's systems in other states as follows:

- A. 1995 range was from 38 percent to 245 percent (dependent on system).
- B. 1996 range was from 26 percent to 233 percent (dependent on system).
- C. 1997 range was from 29 percent to 138 percent (dependent on system).
- D. 1998 range was from 23 percent to 106 percent (dependent on system).

A. Payroll overhead loading rates were computed each year based on the prior year's actual experience. The rate included injuries and damages, welfare and pensions, transportation, FICA and Medicare, federal unemployment, and state unemployment. This rate was then applied to direct and indirect labor during the year to capital projects. At the end of each year, as part of the capital projects closing process, the labor burdens applied to CWIP were trued-up to actual.

Variations in the rates are the result of the annual amounts of injuries and damages, welfare and pensions, and transportation relative to a district's total annual payroll.

Please see the file, payroll overhead rates.pdf, on the enclosed disk. This information was previously provided to the Staff during their on-site audit.
