To Whom it May Concern:

In response to a request from the Arizona Corporation Commission, attached is a published report available at the website listed in the footer of this document, detailing available rates for long distance service. This information clearly identifies a very wide range of costs available long distance service.

Our product falls into the middle range of these available costs. As customers voluntarily agree to our price structure on application for service and are free to discontinue service at any time, we believe that our product price is consistent with a fair market value, or our customers would simply select another provider. Although we have a certain percentage of customer turnover, it is not inconsistent with industry norms.

Communications Network Long Distance, Inc is a national reseller of long distance service, provides several rate plans, ranging from 8 cents to 15 cents per minute for interstate calls, depending on the customer's needs. These rates are available to all of our customers regardless of location.

Please contact me if there are further details needed.

Sincerely,

Aimée Moran
