Subject: Proposed Rate Hike

AZ CORP COMMISSION  
DOCUMENT CONTROL

Director of Utilities

Commissioners,

I am writing to protest the proposed rate hike submitted by Arizona-American Water Company Inc. I cannot see how any company can justify an 88.81 % rate hike over a two-year period. Since this company serves its customers, I feel they should look at cost's Vs income before passing on such a large request without furnishing justification. This is excessive and should not be permitted.

I insist you disallow this request in favor of a more realistic if justified at all increase.

Sincerely,

*N. Hickman*
