RE: APPLICATION FOR INCREASED WATER RATES BY
PINEVIEW WATER COMPANY, SHOWLOW, ARIZONA.

I AM VERY OPPOSED TO ANY INCREASED RATES OF THIS COMPANY.

Basic rates are charged year around even though ShowLow is a town where a large number of the population are summer time only residences. In addition to paying year around, the city sewer rates are determined by the water usage even though quite a number of gallons in the summer time do not go into the sewer. (USED WATERING TREES LAWNS, ETC.).

I lived in Prescott for 22 years, and if you were gone and had your water shut off, there was no charge, and a certain amount of gallons of water was deducted form your sewer bills because of allowing for outside usage.

This water company is not a very popular water company... people had complaints some years ago and they reacted by raising the water bills. I think a 20.77 percent increase would amount to almost \$4.00 per month ... too much. A lot of customers are senior citizens and the cost of living increases are making it difficult to get along.
