GLEASON PROPOSED AMENDMENT # 1

DATE PREPARED: October 25, 2004

COMPANY: Red Rock Utilities, LLC

AGENDA ITEM NO. U-12

DOCKET NO. WS-04245A-04-0184

OPEN MEETING DATE: October 26, 2004

Page 7, after line 22 INSERT new Finding of Fact 32:

"Red Rock's wastewater rates consist of a flat monthly rate. In general, all customers in a class are charged the same amount regardless of how much that customer taxes the system. However, for Red Rock's water rates, we adopt a tiered rate design that requires customers who use more water to pay more. We find that this encourages water conservation. Some municipal systems bill their wastewater customers based on the amount of water they use. To determine if tiered wastewater rates based on water consumption would be an appropriate rate design, we will require Red Rock to include a proposal in its next rate case filing that will present information on 1) whether wastewater rates based on water consumption encourage water conservation; 2) whether higher bills for those who use the system more is a fairer way to collect revenue and 3) what tiered wastewater rates based on water consumption would look like compared to a flat rate design."

Renumber to conform.
