Re: Siting Case #126- No Northern Alignment!

Dear Chairman Woodall and members of the Committee:

My name is GENE A. PARSONS and I am strongly opposed to placing the power lines through the heart of Casa Grande along the "Northern Alignment". While most of Pinal County is wide open desert and farmland, the area along the Northern Alignment is some of the most densely populated and quickly developing in the entire County. Please do not site this line through the already existing neighborhoods and near our schools and churches. Thousands of people live in the immediate vicinity of the proposed Northern Alignment while very very few live anywhere near the Preferred Alignment to the south of Casa Grande.

*THIS LINE WOULD BE WITHIN 1/2 MILE OF MY HOME, THEY LIVE TO THE COMMUNITY ABOUT THE LINE.*

Sincerely,

*Gene Parsons*

**Re: Power Lines along McCartney Road in Casa Grande, AZ**

Ms Woodall

As a resident and businessman of Casa Grande, I would like to express my deep concern over the proposed route of Power Lines along McCartney road in Casa Grande. This proposed route runs along a developing local community road with many new homes, many proposed new homes, and the Casa Grande High School. I don't understand why you would consider this route if an alternative is available.

The City of Casa Grande has proposed a route running along the south side of the I-8 corridor. This would seem to be a less populated, long term commercial development area, and not something that would end up around homes and Schools. Especially if developed now.

I understand the need for continued development and the obvious connection between development and electrical power. I believe that a more amicable solution is possible where both parties win. Your consideration is appreciated.

Re: Siting Case #126- No Northern Alignment!

Dear Chairman Woodall and members of the Committee:

My name is EUGENE FALKNER and I am strongly opposed to placing the power lines through the heart of Casa Grande along the "Northern Alignment". While most of Pinal County is wide open desert and farmland, the area along the Northern Alignment is some of the most densely populated and quickly developing in the entire County. Please do not site this line through the already existing neighborhoods and near our schools and churches. Thousands of people live in the immediate vicinity of the proposed Northern Alignment while very very few live anywhere near the Preferred Alignment to the south of Casa Grande.

Sincerely,

  
\_\_\_\_\_

My address is: 1274 E. BARCELONA AVE.

CASA GRANDE, AZ 85222

**L-00000B-04-0126**

Dear Ms. Woodall:

I heartily agree with the endorsement of the City of Casa Grande and the residents of Casa Grande and the Casa Grande Chamber of Commerce's preferred placement of the 500 kV power lines to be placed south of the city, south of Interstate 8. I think that the placement of the lines at your proposed location along McCartney Road and running through Casa Grande is a very poor idea for a multitude of reasons, all of which have been stated to you at past hearings on this topic. The City of Casa Grande and the spokespersons for the Chamber of Commerce represent a collective voice of us, the residents of Casa Grande, in opposition to your plans. Please listen to the voice of the people on this topic and vote NO to line placement along McCartney Road.

Sincerely yours,

Philip Ivey, M.D. F.A.C.O.G.

**RE: Line Sting Committee Case Number 126**

Dear Chairman Woodall and Members of the Committee:

We are writing to express our concerns and opposition to the proposed power line routes running to the North of Casa Grande. We are the owners of one hundred twenty-six acres of property at the Northwest corner of Rodeo and Trekell Roads, which will soon be home to more than four hundred sixteen residents. We are extremely concerned that SRP is considering running this huge power line through one of the most densely populated areas in all of Pinal County. We ask that the Committee take the following reasons into consideration and intervene to stop this potential disaster:

The first consideration is the literally thousands of existing residents that presently live within a mile of SRP's proposed northern alignment. During its testimony, SRP admitted that there are nearly six hundred dwelling units presently within a mere one-eighth of a mile of its proposed pipeline alignment. Typically there may be ten or twenty dwelling units within this distance of the line, but in this case there are at least thirty times as many dwelling units.

Secondly, in addition to the already existing residents, the number is set to multiply dramatically in the very near future. This area of land is some of the furthest along in the development cycle in all of Pinal County. In our case specifically, we will be building the previously mentioned four hundred sixteen lots, however, an additional eight hundred home sites are planned to the immediate North.

Lastly, placing the line in this area does not take advantage of the fact that so much of the area remains undisturbed and unplanned. The proposed position of the pipeline is full of finished residences and platted and approved subdivisions in various stages of construction. In contrast, the preferred alignment favored by the City of Casa Grande, is through areas that do not have dwelling units and are thus far unplanned. Placing the lines in the South will allow development to incorporate the lines rather than inevitably be destroyed by them. This alternative makes sound sense for the future of the area.

We thank you for your consideration in this matter. We ask the Committee to recognize that this area is the residential heart of the City of Casa Grande and only approve a line running to the south.

Sincerely,

Jim Carlson  
Senior Vice President

Re: Line Siting Committee Case Number 126: Stop the Line North of Casa Grande

Dear Chairman Woodall and members of the Committee,

We are writing this letter to express our vigorous opposition to the proposed power line routes running to the north of Casa Grande. We are the owners of 25 acres of property at the northwest corner of Trekill and Rodeo Roads, Casa Grande, AZ, that will one day soon be home to more than 240 apartment units and commercial retail center. Frankly, we are shocked that SRP would even consider running this huge power line through one of the most densely populated areas in all of Pinal County and ask that the Committee please step in and stop this potential disaster. There are a number of reasons that this line should be avoided.

There are literally thousands of existing residents that live within a half mile to a mile of SRP's proposed Northern Alignment. In fact, during its testimony, SRP admitted that there are nearly 600 dwelling units within a mere 1/8th of a mile of its proposed pipeline alignment right now. This number is set to multiply exponentially in the very near future as the land in this area is some of the farthest along in the development cycle in all of the exploding Pinal County area.

The fact that this route is even being considered or proposed is astonishing when you look at SRP's testimony regarding the number of homes within an 1/8th of a mile of its other proposed alignment segments. When you look at these numbers you typically see that maybe ten or twenty dwelling units will be within an 1/8th of a mile of the line but here you have at least 30 times as many dwelling units presently existing.

Placing the line in this area does not take advantage of the fact that so much of the area is actually undisturbed and presently unplanned. The pipeline and McCartney Road are full of finished residences, and platted and approved subdivisions in various stages of construction. In contrast, the Preferred Alignment or those favored by the City of Casa Grande are through areas that do not have the number of dwelling units and that are thus far unplanned. Placing the lines in the south will allow development to incorporate the lines rather than being destroyed by the lines and makes sound sense for the future of the area.

We thank each and every one of you for your consideration of these matters. This area is the residential heart of the City of Casa Grande and we ask that the Committee recognize this fact and only approve a line running to the south of the City of Casa Grande.

Sincerely,

C. Dale Willis, Jr.
