1. Please explain how your company calculated the maximum and minimum rates for each of your proposed services.

**Response:** The Company has not entered into an interconnection agreement with Qwest or any other LEC in Arizona. Until such time as such agreements are in place, the company will not be able to accurately price their services for its tariff. The current rates are illustrative only and the company believes they are similar to its potential competitors.

2. Please indicate why you believe your proposed range of rates is just and reasonable using a competitive market analysis. Your analysis may contain publicly available examples of rates charged by the incumbent or other carriers for similar services or any other information that you believe demonstrates that your proposed rates are just and reasonable. Please include any supporting materials. For a list of telecommunications carriers certificated in Arizona, go to [www.ss.state.az.us/utility/utility](http://www.ss.state.az.us/utility/utility); for a list of Commission-approved telecommunications rates and tariffs, to [www.cc.state.az.us/utility/tariffs](http://www.cc.state.az.us/utility/tariffs).

**Response:** Please see response to number 1. above.

3. Please indicate why you believe your proposed range of rates is just and reasonable using a fair value or cost basis. Please include economic justification or cost support data. Please include any supporting materials.

**Response:** Please see response to number 1. above.

4. Please identify any other jurisdictions in which your company or an affiliate provides similar services. Please specify the rates that your company and/or affiliate charges for these similar services in these other jurisdictions. If there is a difference between the rates that your company is proposing for its Arizona operations and the rates that your company and/or affiliate charges in other jurisdictions for similar services, please identify and indicate the amount of the difference and explain why you are proposing different rates in Arizona.

**Response:** None at this time.
